What you need to know for 2025

Flexible Spending Accounts (FSAs)

The 2025 annual contribution limit for Health Care FSAs will increase to \$3,200. The contribution limit will remain at \$5,000 for Dependent Care FSAs.

Any money remaining in your Health Care FSA above \$640 at the end of the 2024 plan year will be forfeited. Beginning in 2025, you can roll over a remaining balance *only* if you make an FSA election for 2026. Funds remaining in your Dependent Care FSA do not roll over into the next plan year.

401(k) Catch-up Contribution Change

Participants turning 50 or older by year-end are eligible for 401(k) catch-up contributions. Starting January 1, 2025, catch-up contributions will no longer require a separate flat dollar amount election. Instead, eligible participants will elect a total deferral percentage that will include both regular and catch-up desired deferrals.

Deferral elections will continue to be withheld until they reach the combined regular and catch-up contribution limits. The flat dollar catch-up election set as of December 31, 2024, will not roll over on January 1, 2025. Pre-tax, after-tax and Roth deferral elections as of December 31, 2024, will remain in effects unless updated on [gdbenefits.com](https://www.gdbenefits.com).

Tax-advantaged accounts

Gulfstream offers you two types of FSAs — the Health Care FSA and the Dependent Care FSA. You contribute to these accounts with pre-tax deductions from your paycheck. By paying for eligible expenses with pre-tax dollars, you save money. Visit [wageworks.com](https://www.wageworks.com) to learn more or access your account.

The Health Care FSA

- In 2025, you may contribute up to \$3,200 to a Health Care FSA to use for eligible medical, dental and vision out-of-pocket expenses. You can only carry over \$640 in unused funds at the end of the year, any funds above that amount will be forfeited. Beginning in 2025, you can roll over a remaining balance *only if* you make an FSA election for 2026.

The Dependent Care FSA

- You can enroll in this account if you have a dependent child (under age 13, unless disabled) or elder care dependent who lives with you. You can contribute up to \$5,000 annually (or up to \$2,500 if you are married and filing taxes separately) for eligible dependent care expenses incurred while you or, if married, you and your spouse work, seek work, or attend school full time. Under the Dependent Care FSA, you can only be reimbursed up to the amount that is in your account at the time of reimbursement. Any amounts remaining in your Dependent Care FSA at the end of 2025 will be forfeited.
